

## **B**onny Ferrer goes Latin soul...

With her warm, sexy voice, she casts a spell on every listener. Her songs are cheerful, light and full of feeling. Her lyrics romantic and moving. They speak of love, God and the search for inner peace. Through her music, Bonny Ferrer stirs the hearts and souls of her listeners. Her unmistakable style is reflected in each one of her songs. The mixture of Latin and soul, inspired by her Spanish and African roots, leaves listeners swaying to the rhythm of the music and invites them to dance.

When the Afro-Spaniard, who grew up in Hamburg, reaches for the microphone, there's always a hint of glamour in the air. She captures her audience with her naturalness, charm and temperament. She radiates a Latin joie de vivre mixed with a Hanseatic reserve.

Following countless arrangements and television appearances as a background singer for well-known acts such as Kim and Oceana, Young Denay and Princessa and after featuring as one of the main voices on James Last's "New Party Classics", she published songs on various compilations (Brazilution, The Best of Syke ´n´ Sugarstarr, Ibiza Loungin´, Smoove Moves, Kultur spiegel and many more). But the Ghanaian-born singer's real passion is her own music: Latin soul.

Bonny Ferrer expresses her very essence on her current CD "de dentro hacia fuera": from the inside out. Revealing her innermost self. Inspired by artists such as Sade and Gloria Estefan, she sings about true stories dictated by life. Deep and meaningful lyrics, skilfully packaged in light compositions. Listening is a pleasure. It is music that truly leaves its mark. The creative Piscean has almost all her instrumentalists playing live, giving the listener the feeling they are at one of her concerts.
